2026 -2027

## A new generation of highly efficient, authentic and stylish electric fires.

---

The focus of your living space, these fires have been designed and manufactured with optimal controllability of heat, light and sound as the critical elements. Controllable from your handset, via Alexa or through the app on your smart phone or watch, you can customise your fireplace to suit your individual taste. No electric fire, currently on the market, has the level of product features or attention to detail that Solution Fires have as standard, supported by a high level of genuine customer service. For more information about our products, please visit our website [www.solutionfires.co.uk](http://www.solutionfires.co.uk).

# Willow Bioethanol Stove

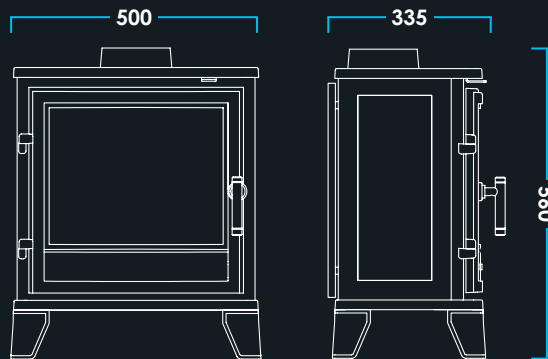

## Heat Output: 2-3kW

The Willow bioethanol stove is a flueless, real-flame decorative appliance that burns renewable liquid fuel derived from plant-based sources like corn or sugarcane. Its defining characteristic is ventless operation, meaning it does not require a chimney, flue, or gas connection, allowing for near-total flexibility in placement.

## Features

- Fuel Type: Liquid Bioethanol
- Burner Capacity: 1 Litre
- Burn Time: Approx 3 Hours on High Flame
- Control: Manual
- Fuel Bed: Ceramic Log Set
- Construction: Steel & Cast Iron
- Ventilation: Not Normally Required
- Optional Decorative Flue Kit

## Technical Dimensions (mm)

Clearance to Combustibles: 100mm  
Hearth: Non Combustible Material

# TrueFlame 3DX

**Solution Fires have developed a range of pioneering, ultra-high-definition LCD fires that are redefining the electric fire market.**

Featuring a state-of-the-art **4K LCD flame screen**, the TrueFlame range delivers a crystal clear image with cinematic qualities. Designed with meticulous attention to detail and using the latest technology, Solution Fires have developed captivating visual concepts that include a variety of backgrounds, flame types and even a tropical aquarium on the 100 & 150 **3DX** models.

To complement the large range of visual experiences on offer, the TrueFlame range comes with a hand-crafted, premium real log fuel bed. A decorative stone fuel bed is available as an optional extra on certain fires, designed to create a contemporary look for the gas flame or aquarium visual effects. The fuel beds are interchangeable, allowing the fire to be converted as desired.

For optimum control, there are manual and remote capabilities built into the fire whilst the 100 & 150 **3DX** fires can also be controlled by an app.

Every detail of the TrueFlame range has been cleverly engineered to deliver the most realistic visual experience which can be customised to create an attractive optical aesthetic that enhances the ambience of any room.

**Solution Fires - Revolutionising the Future of Electric.**

# LUXPLUS+ Extra Wide Feature Fire

## Create a 2.5m - 4m electric fireplace

Solution Fires have cleverly designed the LUX range of cassette fires so that they can be fitted side by side to create that extra wide WOW factor fire.\* For an enhanced visual appearance, we can provide a single front glass screen that removes the need for a central joint.

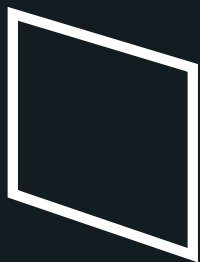

The following widths of fires can be achieved using the combination of fires:

2 x LUX125 = 2.5m Fire      2 x LUX175 = 3.5m Fire

2 x LUX150 = 3m Fire      2 x LUX200 = 4m Fire

*\*Fires order as pairs will come with special factory fitted side panels. A join in the rear flame screen will always be visible along with a gap between the two flame effects. Glass is a special order and will increase delivery times.*

# LUX & PURE Suites

## Made To Measure

All suites can be tailor made to your size requirements allowing you to create a truly bespoke installation that is perfectly suited to your space. Maximum sizes apply so we do recommend that you speak to your retailer to get more information about this service.

## Create Your Own Perfect Finish

Suites can be supplied in a primed only finish if you would prefer to get creative, opting to paint or wallpaper the components yourself. Chimney Breasts are only available in a primed finish, come flat packed and certain fixing holes will require filling after installation.

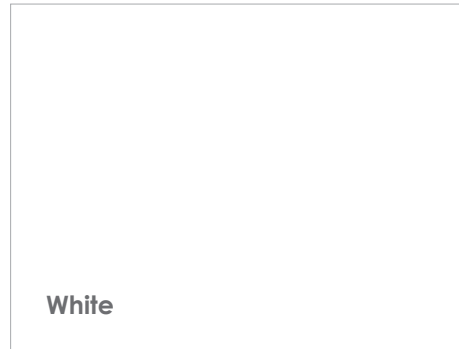

## Choose from the following finishes:

Solution Suites are available to order in a range of stylish standard and premium colours and materials.

Alternatively, we can supply your suite as primed only or colour matched to your own personal swatch. Speak with your retailer for more information.

## Where To Buy

The Solution Electric Fires range is distributed via our authorised dealer network. These independent retailers are able to give you advice on all aspects of your fireplace requirements from quotations to technical and installation services. For details of your nearest retailer, please visit our website at:

[www.solutionfires.co.uk/where-to-buy](http://www.solutionfires.co.uk/where-to-buy)

## The Solution Warranty

All Solution Fires come with a standard 2 year warranty; year 1 includes parts and labour, year 2 includes parts only. Any fire purchased outside of our authorised dealer network will carry a 1 year non-extendable warranty. Standard 2 year warranty requires no registration.

For added peace of mind, we offer a 5 year Platinum Warranty Plan. To apply for the extended 5 year platinum warranty, please register your fire online at [www.solutionfires.co.uk/warranty](http://www.solutionfires.co.uk/warranty) within 60 days of the purchase date.

**Please visit our website for full terms and conditions.**

Solution Fires is a division of **Capital Fireplaces Ltd**
