

ELLERE

DESIGNER INSPIRED FIRES

2026 / 27

Ellere 2026

Our designer-inspired electric fires can elevate your home, creating a stunning, high-quality media wall that draws attention and sets the perfect cosy atmosphere for relaxing evenings.

Featuring a highly realistic LED flame effect paired with real wood log fuel beds, our fires deliver an authentic look without the inconvenience or upkeep of a traditional wood-burning stove.

Our built-in range offers flexible installation, with customisable side glass panels that allow you to configure your Ellere electric fire with one, two, or three visible sides. Our Slimline range has an overall depth of 200mm allowing you to create a media wall without taking up too much space. The new Vista range offers our tallest ever flame effect which is paired with real cut and charred logs for our most authentic fuel bed.

Every model comes complete with a remote control for effortless operation, along with a programmable seven-day timer. You can choose from the Ellere Slimline range, available in four sizes, or explore our latest Vista collection, offered in three sizes.

5 Year Extended Warranty

All of our products come with a five year warranty. Year one of your warranty includes parts & labour . Years 2-5 covers parts only .

Our built in range of fires are fully accessible from the front glass panel allowing for any parts to be replaced without interfering with your installation.

All images are for illustration purposes only, seek advice from one of our carefully selected retailers.

All information is correct at time of printing and is subject to change.

Vista

Our new built in range, The Vista offers you a premium media wall fire with uninterrupted flame views. A deep fuel bed and tall flame picture design will create an elegant focal point in your home.

Heater

Every Vista model has a 1400 - 1600W electric fan heater so you can quickly boost the warmth in your home during those cold winter months

Flame Effect

A highly realistic LED flame effect works separately from the Vista's heater allowing you to enjoy the flame animation throughout the year. Using the control panel or included remote the flame colour can be changed between the 10 animation colours.

Sizing

The Vista is available in three models with widths ranging from 1.3m to 1.8m to ensure you find the perfect model to match your home. The fuel bed also has a bigger depth than any other Ellere built in model allowing for large real wood logs in various sizes to decorate the fuel bed.

Fitting

Each Vista model is provided with glass side panels so you can choose to install your media wall fire with either one, two or three sides and customise it to your own liking.

150	1496.2	340	157.7
180	1800.2	340	157.7

Fuel Bed

The extra fuel bed depth in the Vista built in fire range has allowed us to create new fuel bed decor to enhance the authenticity of the fire.

Real cut logs in a range of sizes are charred and paired with wood chips, black crystals and vermiculite pieces to replicate ash.

Ellere Slimline

The Ellere Slimline built in fire range is available in four widths to ensure you can find the perfect size for your home. The shallow depth of 200mm of each Slimline Ellere ensures you can build a media wall that doesn't take up too much space in your home.

Heater

Every Ellere Slimline model has a 1400 - 1600W electric fan heater so you can quickly boost the heating in those colder winter months

Flame Effect

A highly realistic LED flame effect works separately from the Ellere heater allowing you to enjoy the flame picture all year. Using the control panel or remote the flame colour can be changed between ten colour options.

Sizing

The Ellere Slimline range is available in four models with the flame picture width ranging from 1m to 1.8m to ensure you find the perfect model to match your home.

Fitting

Each Ellere Slimline model is provided with glass side panels so you can choose to install your media wall fire with either one, two or three sides and customise it to your own liking.
